Regarding lack of response to two previous  
petitions to Director of Art Unit 3643 requesting  
withdrawal of allowance for patent.

Petition to Commissioner for Patents  
From Applicant - Huey Thomas Crochet  
Application # 10,083,771  
New Examiner – Supervisor, Peter Poon  
Art Unit 3643

37 CFR 1.8

Sir, on more than one occasion the applicant has complained by petition to the commissioner, that petitions to the Director of Art Unit 3643 were not being answered.

Only upon filing petitions to the commissioner did said director respond in a manner satisfactory to the applicant, such that no action was necessary on the part of the commissioner's office and none was taken.

As a result the applicant's money for a petition to the commissioner is still in the applicant's file in the petitions office.

Said money is to be used to pay for this present petition to said commissioner.

On January 12, 2006 the applicant faxed a petition to the Director of Art Unit 3643 requesting a withdrawal of allowance for patent.

On said January 12, 2006 date said applicant also made reply, by fax, to a supplementary allowance for patent and a review of telephone interview.

On February 11, 2006 the applicant faxed another petition to said director requesting a response in writing and on the record to said January 12, 2006 petition.

As of May 1, 2006 the director has made no response of any kind.

The papers faxed on January 12, 2006 all bear a certificate of faxing and were filed in a timely fashion.

The applicant has the receipts showing that said papers were received by the patent office in their entirety.

If said papers of January 12, 2006 have been mistakenly recorded as miscellaneous papers then the applicant respectfully requests the commissioner to compel the Director of Art Unit 3643 to correct the error and respond to the applicant's petition of January 12, 2006 in writing and on the record.

I hereby certify that this correspondence is being facsimile transmitted to the USPTO (fax # 571-273-8300) on this day, May 2, 2006.
